## 2024\_28\_III\_OOPS Using Java Lab

### 2028\_REC\_OOPS using Java\_Week 8\_Q4

Attempt : 1  
Total Mark : 10  
Marks Obtained : 10

#### Section 1 : Coding

##### 1. Problem Statement

A local municipality is implementing an online voting system for a community event and wants to ensure that only eligible voters (those aged 18 or older) can participate.

Your task is to develop a program that validates the age of individuals attempting to vote online. If the user's age is below 18, the program should throw a custom exception, `InvalidAgeException`, preventing them from casting their vote. If the input is invalid, catch the appropriate `InputMismatchException` and print the in-built exception message.

##### ***Input Format***

The input consists of an integer representing the age.

##### ***Output Format***

If the age is 18 or older, print "Eligible to vote"

If the age is below 18, print "Exception occurred: InvalidAgeException: Age is not valid to vote"

If there is any other type of exception, print "An error occurred: " followed by the in-built exception message.

Refer to the sample output for formatting specifications.

### **Sample Test Case**

Input: 20

Output: Eligible to vote

### **Answer**

```
// You are using Java
import java.util.*;
class InvalidAgeException extends Exception{
    InvalidAgeException(String s)
    {
        super(s);
    }
}
class main{
    public static void main(String [] args){
        try{
            Scanner scan =new Scanner(System.in);
            int age=scan.nextInt();
            if(age>=18){
                System.out.println("Eligible to vote");
            }
            else{
                throw new InvalidAgeException("Exception occurred:
InvalidAgeException: Age is not valid to vote");
            }
        }
        catch(InvalidAgeException e){
            System.out.println(e.getMessage());
        }
    }
}
```

```
        catch(InputMismatchException e){  
            System.out.println("An error occurred: "+e);  
        }  
    }  
}
```

**Status :** Correct

**Marks :** 10/10
